

Showroom Trouble-shooting Guide

If you experience any problems opening Showroom please try one of these alternatives.

1. Is your computer turned on? ;)
2. Download the free Macromedia Flash player, version 8. Go to www.macromedia.com and follow the instructions online.
3. Showroom opens up in a popup window in your internet browser. Google toolbar and other plugins block popups. To change Pop-up Blocker settings:
 - a) Open Internet Explorer.
 - b) On the Tools menu, point to Pop-up Blocker, and then click Pop-up Blocker Settings.

You can also temporarily allow a site to display pop-ups, click the Information Bar when it notifies you that a pop-up has been blocked. Then click Temporarily Allow Pop-ups.

4. Gaaah it takes forever to load. Chill...the show is definitely worth waiting for. Contact your internet provider and upgrade your internet connection speed.
5. If you still experience problems, e-mail mail@theshowroom.se. We will try to get back to you as soon as possible. And yes, you are allowed to use obscene words.

Kind Regards,
The SHOWROOM family
